

PROFESSIONAL AVIATION TRAINING

Instrument Refresher - Helicopter

2017 Course Information

This course is intended to enhance the pilot's Situational Awareness through a more thorough and accurate understanding of Instrument Flight Rules (IFR) and related subjects. The participant-led discussions and scenario-based activities are designed to inspire a confident attitude in the client to apply their IFR skills and knowledge of daily operations.

Course Curriculum	16.5 Hours
Ground School	8.0 hours
Brief/Debrief	3.0 hours
Simulator	5.5 hours
Course Based on the Following Aircraft	
Bell 212	
Bell 412	
Bell 430	
Airbus Helicopter H135	
Sikorsky S76B	
Sikorsky S76C+/C++	
Sikorsky S76D	

Full Service Pricing—For more information on FlightSafety's Full Service Program and its benefits, please contact your Regional Sales Manager or a Center Sales Manager at any FlightSafety Learning Center.

Ground School covers the following topics:

- FAR/AIM Definitions
- Airspace Review
- FAR Regulations
- CRM/Risk Management
- Taxi Procedures
- Flight Planning
- IFR Departure and Approach
- Review Questions and Conclusion

Simulator Curriculum includes the following:

In the Flight Training Device or Simulator, using appropriate aeronautical charts, the pilot(s) will perform VFR and/or IFR procedures as outlined in the Aeronautical Information Manual within the tolerances specified in the Instrument Rating and/or Airline Transport Pilot (ATP) Practical Test Standards Rotorcraft Helicopter as appropriate for the pilot certificate held.

1. 61.56 Flight Review (subject to simulator capabilities, client landing currency, and based on the current FAR 61.56 requirements)
2. 61.57a (VFR) General experience based on current FAR 61.57a requirements (subject to simulator capabilities)
3. 61.57b (VFR) Night takeoff and landing experience based on current FAR 61.57b requirements (subject to simulator capabilities)
4. 61.57c - Instrument Experience (subject to client instrument currency, appropriate instrument rating and based on the current FAR 61.57c requirements (subject to simulator capabilities and based on the current FAR requirements)
5. 61.57d - Instrument Proficiency Check based on FAR 61.57d requirements (subject to simulator capabilities and based on the current FAR requirements)

Course Dates: This course is scheduled on request. Please contact any Learning Center listed below to schedule.
